Postponed.

We learn from a dispatch received by Mr. Thomas Morgan from Centralia, that the excursion on the Steamer Eckert, arranged by the Centralia folks for to-day, is postponed indefinitely.

Matters in municipal circles were quiet vesterday, although both parties seem to be on the defensive, and we presume from the indications, that His Honor and the Council will have another "dig" at each other on next Tuesday night.

Hand Meeting. The Silver Cornet band held a meeting on Wednesday evening and discoursed, for quite a while, their choice music. This band is an excellent one, and we are sorry that they will not participate in the open-air concerts which are such a source of pleasure to our citizens.

## Nearly Finished.

The elegant and commodious brick ousiness block, belonging to Mr. J. H. Phillips, at the corner of Fourteenth street and Washington avenue, is rapidly approaching completion. It is one of the finest buildings which has been erected in this city for years, and will add greatly to the appearance of that locality,

Do not fall to attend the hop to-night at Scheel's Hall, given by the Delty City String Band. These gentlemen, under whose management the affair has been left, have everything in readiness to insure a pleasant time to those who will be present, and we trust they will be facrowd.

Hinckley, General Superintendent of the Cairo and St. Louis, says, that with the exception of one or two slight wash-outs. some weeks since, their line has stood all the recent heavy storms without injury. Not a train has been abandoned, and with but one or two exceptions, all trains have been on time.

The Taylor Literary Society.

The Taylor Literary Society, at it regular meeting held on Wednesday evening last, decided on giving an entertainment on September 16th, next. The programme will be varied in its character, and will, we are satisfied, be really excellent. Aside from the members of the society, quite a number of Cairo's most talented artists have been prevailed on to take part in the entertainment, and with this help the society will be enabled to give an entertainment which will be satisfactory to the public and a credit to N. O., St. L. & C. R. R. themselves.

We learn that on Tuesday night burglars effected an entrance into the residence of ex-Mayor Wood, and succeeded in making off with quite a lot of clothing belonging to Mr. Wood. We are pleased to learn that the loss was no greater, and trust that the light-fingered gentlemen will be speedily apprehended. This is the first robbery we have heard of in the city for quite a while past, and we would eaution our citizens to be careful, and look well to the fastenings on their doors and windows, as we are informed that there are several suspicious looking individuals in the city.

No Danger to the City. The Cairo correspondent of the St. Louis Globe-Democrat, in a dispatch to that paper of yesterday, says "the situation in this region grows critical. The Ohio continues to march up the levees and over into Kentucky with rapid strides. Two feet three inches more will be dangerous to the levee, and seven feet more will sweep over the tevees and overwhelm the city. The Ohio levee is considered safe till the water gets to the top. The Mississippi is a little risky, and considerable alarm is felt." This is a mistake. No alarm whatever is felt by the people of this city. Cairo is perfectly safe from overflow, and sensational reports like the above have no foundation

A Good Joke on Rev. Dr. Thayer. From Evansville Courier, Aug. 3:-Yesterday evening a rather awkward accident occurred to Rev. Dr. H. B. Thayer, of Vincennes, owing to deceptive vision. He was in the parlor of the St. George Hotel and seeing the window opening on the piazza, started to go on the delightful retreat. Unfortunately for the reverend gentleman, the window was closed, the glass was very clean, and the divine's eyes were deceptive. He supto walk through it. As Dr. Thayer is a rather corpulent man, he made a large sized opening in the window, and bruised

posed the window was up, and he tried his face a little with the shattered glass. The accident was witnessed by a large vored with a large and appreciative number of persons on the opposite side of the street, who enjoyed the expensive joke on the D. D. "Nabbed." madam had reasons to believe that Hurley was the offender, she was unable until yesterday to fasten the crime upon her. It seems that on yesterday Hurley, thinking that the affair had blown over, sailied forth and invested considerably in dry goods, &c., and was negotiating for the purchase of a watch. This having been reported to the madam, she promptly reported the affair to Sheriff Irvin and Deputy Sheriff John Cain, who took Hurley in custody and found the money upon her person. When cornered she acknowledged her guilt, and is now confined in the county jail awaiting her trial, which will take place in a few days.

PROM THE CITIZENS.

WOULD LIKE TO KNOW.

(Editor Bulletin.) SIR: -We poor and impoverished residents of the Fourth and Fifth wards crippled by heavy taxes, and drowned out by high water, would like to know h the city of Cairo employs and pays a police force to watch and impound our stock when found out on the common. They don't seem to trouble any one except the police force. There are many of our citzens living in low places, where at presnt there are ten feet of water. What hall they do with their stock? The au thorities say : "Drown them in the sipe water or let them go to the pound." ask if this is justice. If so, excuse me, I hope our city dads will amend the stock ordinance, so that it will give more satisfaction. ONE FIVE FEET IN WATER.

WENTIETH STREET, AGAIN.

[Editor Battetin.]
DEAR Sin:—As a resident on Twenleth street allow me to thank you for your notice in the BULLETIN concerning the bad condition of our street. But besides that teams get stalled, there have been five wagons broken within the last two weeks. It seems nobody makes any complaint, and that our City Fathers don't know where Twentieth street is, except for taxing purposes. I guess there is nobody to blame. Give this matter further notice, so that something will be done for Twentieth street and you will receive the thanks of the residents up-WM. ERLERS. on It.

General Items. -The sales of the New York store, on the 2d and 3d inst., amounted to \$3,000 eash in hand. A very fair business. -Jack is the Winter of the Council's discontent. Who will make him glorious Summer. Where is the Sun of York that

can do this thing? -It is reported that Mayor Winter and Marshal Williams have kissed and made up, and now everything is lovely and the goose it hangeth high.

-We have been told that one of our policemen-one of the night policemen -has been occasionally putting on a substitute. Where do policemen find authority for the substitute business?

-Marshal Williams was absent with circus twenty-two days. The Council paid him his salary for the time. We be lieve the Council should have done no such thing. Marshal Williams had a right to go away from the city with the circus, but he was not entitled to salary for the time he was absent.

-Schuster was an officer. And Jacky he was mayor : And Jacky thought that Schuster, he

Wasn't acting fair. So Jack removed Billy Schuster. And the council it said: "Nav." And so the wrangle rages

And the devil is to pay. -The communication of "Agest" on the sewing machine business, not being accompanied by the writer's name, cannot be published; and, if it were accompanied by a name, it would not find place in our columns. As we read it, it very well written, in a legible hand, but "windy"-in other words

lengthy. -Jackie got a litttle mad And Jackie cut off Freddy's head. "This will not do, this will not do,"

Brave Tommy unto Jackie said; "It will," said Jack; "It won't," said Tom. And then they wrangled mightily.

"I'll see Patier and Saup and This, And, mark me, also, Wright I'll see,' Jack unto Tom then warmly said;

But Tom unmindful then and there Took up and put on Freddy's head." -The Council voted to pay Whiteamp and Schuster for the time they were out of office by the romoval of the Mayor. The Council had no right to do so. The Mayor has authority to remoce any appointed officer from office when in his opinion the interests of the city require such removal, and the removal deprives the removed officer of any right to receive pay for the time he was out of office, even if the Council, when the Mayor

states his reasons for the removal, votes that they are not sufficient. -When Mayor Winter ruled Alderman Halliday's investigating report out of order, he did not, if we understood him, desire to say that he wished no investigation of the charges made by him against Messrs. Whitcamp and Shuster, but simply that he believed the Mayor's Bill gave him the right of removal for any cause that in his opinion was sufficient, and that all the Council could do was to pass upon the sufficiency of the causes reported by him to that body. We have and do yet hold the opinion, that the Council may investigate to ascertain whether the causes are sufficient, but there are many reasons to believe that the Mayor may be right in his con-

struction of the law. -"One Five Feet Under Water" call attention to the fact that the sipe water has driven his stock out of the stables on to the commons and that the policemen of the city are impoundit. Marshal Williams, ing also be observed, will these unfortunates fair warning

gives that the impounding process is to go on. We are much in favor of the stock ordinance. The owner of a horse has no right to let him run at large, but in a time like this, when the water has invaded many of the stables of the city, the ordinance should not be harshly enforced. Maybe the Mayor, if he would try, might induce the Marshal to suspend the exercise of his energies on loose-horse owners until the floods are

over. -We are informed that the officers o the city permitted the circus that Marshal Williams has been traveling with for some time, to exhibit in this city without paying license-that a part of the license for one exhibition was collected and not a cent for the other exhibitions. It may wanted at any price. Small fruits.

establishment, and this may be true, but does the Mayor find authority for permitting his sympathy to contribute money due to the city to bankrupt sawdust shows? Here is a subject the Connell might investigate to good purpose. CAIRO, ILL., THURSDAY EVENING, AUGUST 5, 1875. The weather to-day has been cloudy and threatening rain, but the light show ers during last night are the first that have fallen in this region since last week.

The telegraph gives account of heavy rains in all parts of the country, and a continued rising of the rivers. The Ohio is higher at this point than we ever saw it before at this time of the year, but it will have to crawl up the levee a good many feet to reach high water mark or cause our citizens any uneasiness. It is now spreading over the low country opposite Cairo and must rise very slow here

if at all. Business rules very quiet in al branches of trade. In leading articles of the commission business, there would be some activity if it were not for lack of supplies. There is no flour to speak of in the market, although the demand is not so active as at the opening of the week, receipts find ready sale and prices are firm at the advance. The corn and oats market is entirely bare, but there is no demand except to fill orders. Butter is steady, stocks light and prices regular. Eggs are scarce and in demand at 10c. Poultry is unchanged in prices but young chickens are dragging. Other branches noted below.

THE MARKET. Our friends should bear in mind hat the prices here given are usually for sales from first hands in round lots. In filling orders and for broken lots it is necis a big puff of sewing machine agents, essary to charge an advance over these in truth it is as safe as any point around figures." FLOUR.

The market is bare and prices tirm at the advance noted in our last issue. Receipts are all taken, but there is a little easier feeling pervades the market. We note sales of 450 barrels city \$6 75; 500 barrels \$6 00@7 50; 300 barrels on orders \$6 00@8 00; 300 barrels \$4 50@

HAY. The market is lifeless. There is a few ear loads in store but none selling, and there are no established quotations.

CORN. Stocks are very small, but there is none wanted outside the order trade. No margin for speculators. There is none coming in at present and dealers are obliged to depend on the supply in store Sales were 1 car white in sacks delivered 82e; 1 car mixed in sacks delivered, 77e; 200 sacks mixed delivered, 76c; 1 car white in sacks delivered, 82c; 2 cars rejected white mixed in bulk on track, 70c; 2 cars choice white mixed in bulk on track, 75c.

OATS.

The market is bare and there is none coming in. There is considerable inquiry to fill orders for old oats, and prices are quoted at 65c to-day. We note sales of 1 car, in sacks delivered, 65c; 200 sacks delivered, 65c.

MEAL. Plenty and dull describes the market for country meal. City meal is taken readily in small quantities at quotation. We note sales of 100 barrels country steam dried delivered, \$3.50; 200 barrels city steam dried, \$3,60@3.65; 200 barrels city steam dried, \$3.65.

BRAN. There is some demand to fill orders, and very little in market. We note sales of 100 sacks délivered, \$17; 100 sacks de-

choice Northern 23c; 100 poinds South-

ern Illinois 21c. EGGS. Receipts were all taken early and the market was bare to-day. Fresh eggs would find ready sale at 10c. We note sales of 300 dozen 10c; 200 dozen 10c; 4

boxes 8@10c. CHICKENS. Young chickens, especially small ones, are dragging. Choice large young chickens and old hens are taken readily at \$2 25@2 50 for young at \$3 50, outside figure, for old. We note sales of 3 coops young \$2@2 50; 5 coops young \$2 25@2 40; 3 coops old hens \$3 50; 10 dozen young \$2 25@2 50; 1 coop old

hens \$3 50. FRUIT, Apples are a drug in the market-not

be said, this circus was an unfortunate grapes, peaches, &c., are in good demand. The sales were 50 boxes tomatoes, 35@40c; 8 baskets Siberian crab apples, 85c; 50 boxes peaches, 50c; 15 boxes lemons \$10@11.

PROVISIONS. The market is quiet and easy, not much demand for anything. Prices rule steady. We note sales of 25 barrels mess pork \$23 00 : 2500 lbs country hams,
